## Aspiring Cyber Security Analyst / Full Stack Developer

As a **Bachelor of Computer Science** student at **La Trobe University**, Melbourne, I have gained experience in website development and programming projects. I am a passionate coder, fantastic trouble-shooter, and enthusiastic Software Developer, keen to be involved in helping to define the future of software applications and solutions. I am now seeking a challenging role as a cybersecurity analyst/developer to leverage my skills and knowledge in the field, though I am also keeping my options open and am interested in exploring a wide range of positions and opportunities.

### Portfolio

- [dcwork.site](#)

#### ▪ Dating Website

Currently developing a dating-focused website. Built using **HTML, CSS, JavaScript, PHP, MySQL and the Laravel framework**

## **WORK HISTORY**

### **Carl's Junior, Junior Cook**

**Dec 2022 - Present**

- As a Junior Cook, I have emphasized on efficiency, quality and care, and demonstrated myself as someone who strives for excellence

### **Melton Library, Assistant**

**Mar 2019 - Nov 2019**

- For my Duke of Edinburgh award program, I volunteered at my local library for eight months
- My responsibilities included shelving returned books, scanning new books into the system, and scanning returns
- I assisted with office duties, customer service, and sorting and classifying various files and documents
- This experience helped me appreciate the work that goes into running a public system, and I am glad I chose it for my award program
